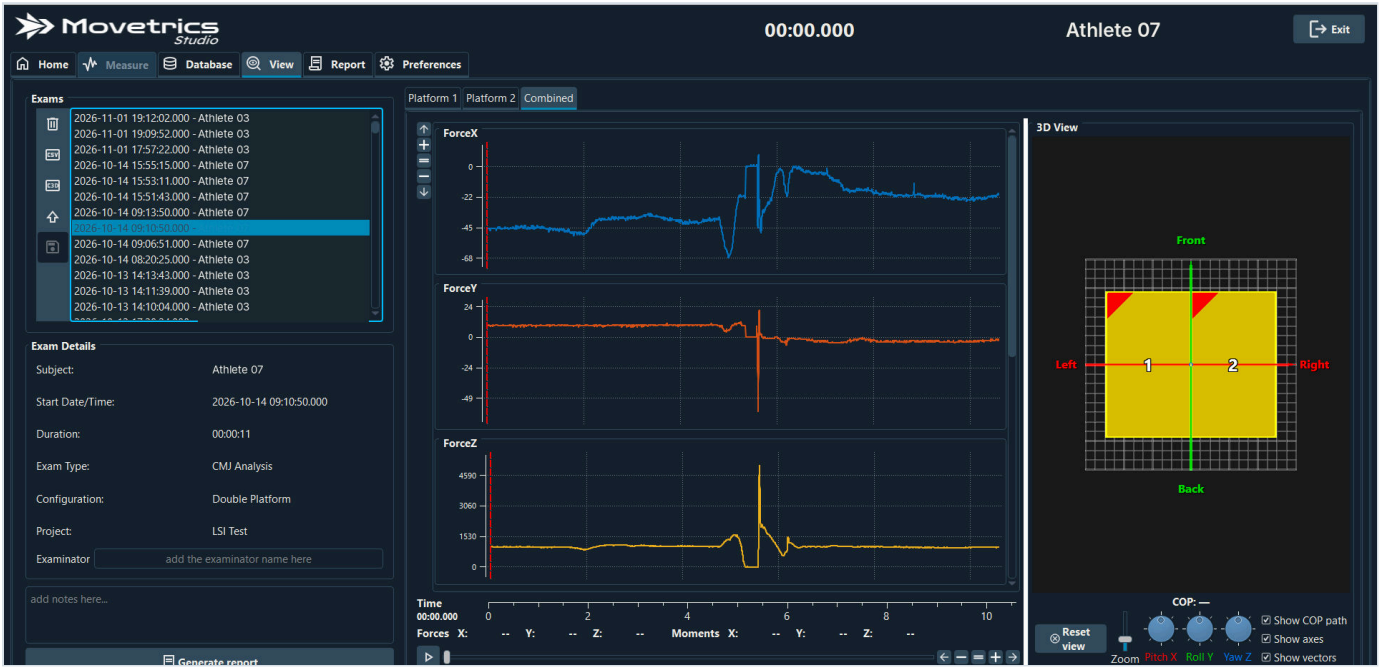
SOFTWARE FOR WINDOWS · INCLUDED WITH EVERY SYSTEM

Movetrics Studio

Guided tests from jumps to balance, and your raw data in open formats. On your own computer, without a subscription.



Movetrics Studio: a countermovement jump on two plates. Athlete names shown as codes.

Guided workflows

Countermovement jump, squat jump, drop jump, sit to stand, gait, balance and free recording.

Open exports

CSV and C3D for your own analysis, and a PDF report to share.

Works without internet

Measuring, review, local records, core calculations and CSV and C3D export work offline. PDF reports and Movetrics AI need internet.

Yours to keep

A perpetual core licence with every system, and 24 months of updates. Movetrics AI has its own terms.

WHAT YOU NEED

Windows	Windows 10 or 11, in English
Computer	Intel Core i7 (tested), 8 GB RAM, 2 GB free disk
Screen	1920 × 1080 recommended
Connection	FDT over USB-C

Measuring, core calculations and exporting your raw data never need a subscription. Movetrics Cloud is free to start, with paid plans for more; most AI features are part of the paid plans.

Intended use. Movetrics systems measure forces and moments, calculate metrics and display them, for sport, research, education, and practitioner-led training and rehabilitation. They are not medical devices. They do not diagnose, treat, monitor or predict any disease or condition, and their results do not replace professional judgement.

Specifications may change. The current edition of this sheet is at movetrics.com/studio. Questions: +49 15678 616 529 or contact@movetrics.com.
